## WORK EXPERIENCE

---

### Full Stack Developer

«Vertikal Ltd»

August 2021 – Present

- Scaled a production application (React, Node.js) to **100+ global** service centers, improving reliability and system stability.
- Led development of a training platform (React, Nest.js, TypeScript) with loyalty system used by **10k+ users**, improving engagement.

### Founder & Developer

«Cloudy - Gratitude Journal»

February 2025 – Present

- Shipped an Android app (React Native, Expo) with Supabase auth/sync, secure storage, PostHog analytics, streaks, biometrics, push notifications and i18n.
- Owned releases (EAS), gained **200+ installs** on Google Play.

### Web Developer

Freelance

October 2020 – April 2021

- Built and deployed small business websites (WordPress/custom frontends as required).
